Birthstone Jewelry

Gemstones have been imbued with spiritual meaning for eons, dating back to the breastplate of Aaron that contained 12 gemstones representing the signs of the zodiac and the tribes of Israel. The modern birthstone list was established by the National Association of Jewelers in 1912, with a few updates over the years.

AMETHYST

The vibrantly purple amethyst, a variety of quartz, has long been worn by royalty and was a favorite of both St. Valentine and Leonardo da Vinci. Amethysts were once considered as rare as diamonds, and medieval soldiers believed they provided healing and calmness. High-quality specimens have saturated color and pure purple hues.
